

**NSW State Annual Meeting
Friday, 17 March 2017
Rowers on Cook River, 1 Levey St, WOLLI CREEK 2205**

Please follow the link for the venue location <https://goo.gl/maps/7v8aY5Zq8rL2>

SEIA wishes to thank our generous sponsors as listed:

2017 SEIA NSW PROGRAM

Time	Topic	Presenter/s
8.30	Registration	Upstairs
9.30	Welcome	Geoff Bragg NSW Chairman
9.35	Introduction by Major Sponsor	Gold Sponsor
9.40	Commercial and residential battery sizing for peak lopping and arbitrage and peak loading and autonomy.	Warwick Johnston SolarWiz
10.05	Choosing which battery chemistry for which application	Lindsay Hart Selectronic
10.35	The RET, its future and the impact of its demise on the solar industry	Ric Brazzale Green Energy Trading
10.55	MORNING TEA - 20 Minutes	
11.15	PID Causes and solutions (Case Study)	Brian England Self Sufficiency Supplies
11.40	Special presentation - SEIA's latest International solar aid An off-grid system with a SP Pro and ABB inverter on a remote island - a Casestudy	Rob Taber - New England Solar Power Brian England - Self Sufficiency Supplies
12.00	LUNCH - 50 Minutes	
12.50	Solar Guidelines and Standards, Revised AS/ANZ4777 Which changes are in the pipeline?	Thomas Bywater - Jinko Craig Tinson - Dynamic Solar
13.20	Microgrids: Design for housing clusters and tenancies One solar system, several owners/tenants, what are the design issues for the most effective way of providing maximum benefits	Chris Martell GSES
13.45	Networks An update on current or future limitations on the grid, meter changes and more.	Grant - Essential Energy Paul Brownlee - Ausgrid Wayne Turner - Ausgrid
14.15	AFTERNOON TEA - 20 Minutes	
14.35	When to choose ELV or LV Storage options Looking at the BYD Storage system that can do either	Alkyra Hutchison-Menzer - RFI Technical Solutions
15.05	Smart meters vs Time of Use Meters What's the difference? What are the benefits for users and the networks?	Nigel Morris - Solar Analytics
15.25	Accreditation for battery storage and Adding batteries to existing systems Does the accreditation really prepare installers to fully understand the implications in a system design? What are the criteria to get the right batteries?	Glen Morris - SolarQuip Geoff Bragg-SEIA
16.05	Forum for installers Trends - good and bad, opportunities or concerns SEIA NSW Committee election	Geoff Bragg SEIA Members/Delegates
16.30	Closing address	Geoff Bragg
