

SUBJECT: Invitation to attend NSW CER Installer Portal workshop

Dear Solar Installer,

The NSW Government is working with the NSW DNSPs (Ausgrid, Endeavour Energy, and Essential Energy) to develop a new portal that creates a single, simple, and streamlined process for solar businesses in NSW to install solar, batteries and other Consumer Energy Resource (CER) technologies.

The Portal supports the rapid growth of solar, batteries and renewable technologies by enabling the registration and testing of installed energy technology, the Emergency Backstop Mechanism and Flexible Export limits for solar customers.

We have been engaging with solar businesses and industry groups on the early development of the new, single installer portal, and we are keen to continue that approach. **We invite you to participate in a short workshop** (details below) to provide feedback and insights on how the portal design and functionality is shaping up, and the training and support you need to use the new portal with maximum ease.

Don't miss the opportunity to have your say at an industry session, which is being facilitated by independent researchers from SEC Newgate. We are interested in the views of people who install rooftop solar and those who have oversight of the connections application and installation process.

Representatives will be on hand during the session to answer your questions about the portal which will be rolling out state-wide.

We have four online sessions that you can choose from. The sessions are online and you will receive a \$250 online Mastercard after the session as a gift to thank you for your participation.

Please click on the following link to complete a short registration to secure your place – :
https://secnewgate.qualtrics.com/jfe/form/SV_87e87ewpy3G3xMG

The session times and dates are:

1. Tuesday 6th May, 5.00-7.00pm
2. Thursday 8th May, 5.00-7.00pm
3. Monday 12th May, 5.00-7.00pm
4. Wednesday 14th May, 5.00-7.00pm

Please email energy.consumerpolicy@dpie.nsw.gov.au if you have any questions.

Best regards

Caitria Reid,

A/Manager Innovation & Integration,

Department of Climate Change, Energy, the Environment and Water
